Mrs. A. W. Rummans went to Hallsville this morning to visit her parents, Mr. and Mrs. O. S. Pemberton.

DR. FAIRCHILD RETURNS

Taught in Summer School of West Virginia University.

Dr. A. H. R. Fairchild, who taught in the University of West Virginia at Morgantown, this summer, spoke highly of the people there. He said: "We found the people there most hospitable and kind. As an illustration of their spirit, one of the professors there put his suitcase there."

Morgantown is built on hills—on the same number as home. The house in which the Fairchilds lived was also built on a hill. The front door was above the telephone wires, the back door level with the second floor and the garden level with the roof. This had its advantages, however, for from the veranda Doctor

Fairchild said that one could see five miles, a view like a superb canvas.

He also said: "Though we passed through many towns we saw none that was a more desirable place to live and have one's being than Columbia."

mer cottage on the Monongahela River at our disposal for two weeks."

Doctor Fairchild and his family made the trip overland, traveling, in all, 2,000 miles, and going through six states. Concerning the roads he said: "The worst roads we found were in Missouri and West Virginia, and the road between Columbia and St. Louis was the worst of all." The trip was made over the National highway. The trip to Morgantown was made in six days and the return trip took five.

Doctor Fairchild taught three courses: literary criticism, Shakespeare and general survey course, during the first six weeks of the summer session of the University. While there he also gave a series of six public lectures on Shakespeare.

The state of West Virginia has appropriated one million dollars for buildings. While the University of West Virginia has not so many buildings as the University here, Doctor Fairchild said that the finest women's hall he ever saw was there.

One Quality-One Price

Firestone

Again Reduces Price
Extra Size 30x3½ \$16.65
Now \$13.95

Firestone first made the low price of \$13.95 on the Standard Non-Skid, May 2. Unusual purchasing power through big volume of business, and the great efficiency of its \$7,600,000 Plant No. 2, manufacturing exclusively 30x3½ size, made this possible. Now, the production of the Extra-Size 30x3½ tire has been transferred

to Plant No. 2. This permits the price reduction on this tire from \$16.65 to \$13.95. No such value has ever before been offered tire users. If your dealer hasn't the Extra-Size in stock ask for our Standard Non-Skid type at the same price. You will still be getting an unusual tire value.

Cords That Don't Blow Out

You feel secure on Firestone Cords. Because Firestone Cords don't blow out. Your repair man will tell you he hasn't seen a blowout this past

year—10,000, 15,000 and 20,000 miles, and the tires still going strong. See your Firestone dealer today. Name below.

Firestone Cord Tires are being sold at lowest prices in cord tire history: 30x3½—\$24.50 32x4—\$46.30 34x4½—\$54.90
